Professional Summary

Results-driven Full Stack Developer with 11+ years of IT experience in web and backend development. Expertise in Node.js, React.js, MongoDB, and MySQL with solid experience in PHP and CodeIgniter. Skilled in designing REST APIs, integrating payment gateways, and delivering scalable web applications. Strong understanding of SDLC, agile practices, and cross-functional collaboration.

Technical Skills

- Backend: Node.js, Express.js, PHP, CodeIgniter
- Frontend: React.js, JavaScript, jQuery, HTML5, CSS3, Bootstrap
- Database: MongoDB, MySQL
- CMS: WordPress
- Version Control & Tools: Git, GitHub, AWS, SSH, Postman
- Other: REST API Design, Payment Gateway Integration, Server Configuration

Professional Experience

- GeDre — Senior Web Developer (Feb 2023 – Present)
 - Designed and implemented scalable RESTful APIs using Node.js and Express.js.
 - Integrated third-party APIs and payment gateways to enhance platform functionality.
 - Managed AWS EC2 deployments, S3 storage, and CI/CD pipelines for production.
 - Collaborated closely with frontend and mobile teams to optimize performance and API usage.
 - Improved database query efficiency using MongoDB indexing and aggregation.
- CapTechIn — Senior Web Developer (Oct 2020 – Jan 2023)
 - Built and maintained Node.js backend services with MongoDB and MySQL.
 - Developed reusable API modules for multiple internal projects.
 - Coordinated with design teams for seamless React.js integration.
 - Handled debugging, version control (Git), and production server management.
 - Mentored junior developers and conducted peer code reviews.
- Xcodefix — Senior Web Developer (Aug 2019 – Sep 2020)

- Developed web applications using CodeIgniter and MySQL, implementing RESTful APIs..
- Collaborated with designers and managed full-cycle development.
- Handled server configuration and maintenance using SSH and Putty.
- Basic knowledge of pointing domains, DNS configuration, and A record setup.
- Ephronsystems — Senior Web Developer (May 2016 – Jul 2019)
 - Worked on multiple PHP and Node.js projects integrating REST APIs.
 - Coordinated with clients to gather requirements and ensure timely delivery.
 - Contributed to migration of legacy systems to modern stack.
- Amsroid Technologies — Web Developer (May 2015 – May 2016)
 - Developed responsive websites using PHP, MySQL, and jQuery.
 - Enhanced website performance and SEO optimization.
- Xcodefix — Web Designer (Dec 2013 – Apr 2015)
 - Designed and coded UI layouts using HTML, CSS, and Bootstrap.
 - Collaborated with developers to ensure seamless integration.

Key Projects

- Wine Industry Network – Developed using CodeIgniter and MySQL with REST API integration.
- RedTie Application – Messaging gateway built with React.js (frontend) and Node.js + MongoDB (backend).
- Hotel App – Hotel management system using CodeIgniter and MySQL.
- Travel App – Custom travel booking application using Core PHP and MySQL.

Education

- B.E. (Computer Science & Engineering) – JCT College of Engineering, Coimbatore
- Diploma in Computer Engineering – Karpagam College, Coimbatore
